

PRESENTATION FORMAT

Step 1: Define Your Objectives

- **Identify the Goals:** Clearly outline the goals of your project. What problem does it solve? What are the expected outcomes?
- **Know Your Audience:** Understand the technical proficiency and interests of your stakeholders. Tailor your presentation to meet their expectations and knowledge level.

Step 2: Structure Your Presentation

1. Introduction

- **Project Overview:** Briefly describe the project and its objectives.
- **Importance:** Explain why the project is important and its potential impact.

2. Problem Statement

- **Context:** Provide background information on the problem you are addressing.
- **Challenges:** Discuss the main challenges and why a machine learning solution is appropriate.

3. Data Collection and Preparation

- **Data Sources:** Explain where the data comes from.
